

GI STONE
GARNET ILLUSION COLLECTION

GI STONE: GARNET ILLUSION COLLECTION

Discover the Future of Surfaces

At GI Stone, we are proud to introduce our Garnet IllusiOn collection, a revolutionary line of zero silica engineered stone. This innovative product combines beauty, safety, and durability, making it the perfect choice for a wide range of applications.

What is Zero Silica Engineered Stone?

Zero silica engineered stone is a composite material designed to minimize or completely eliminate crystalline silica. This not only enhances the safety of our surfaces but also promotes a healthier environment for both users and installers.

Benefits of the Garnet IllusiOn Collection

Our zero silica formulation significantly reduces the risks associated with silica exposure, ensuring peace of mind for your home or workspace.

The Garnet IllusiOn surfaces are engineered to withstand scratches, stains, and heat, making them ideal for kitchens, bathrooms, and high-traffic areas.

With a stunning array of colors and patterns, the Garnet IllusiOn collection provides the luxurious look of natural stone while offering unique designs that can elevate any space.

Our commitment to sustainability means that many of our materials are made from recycled components, allowing you to make an environmentally conscious decision without sacrificing style or quality.

Applications

The Garnet IllusiOn collection is versatile and can be used in a variety of applications, including:

- Kitchen Countertops
- Bathroom Vanities
- Flooring
- Wall Cladding
- Commercial Spaces

WHY CHOOSE GI STONE?

At GI Stone, we are dedicated to quality and innovation. Our Garnet IllusiOn collection is crafted with care, ensuring that every piece meets our high standards for performance and aesthetics. Trust us to provide you with surfaces that not only look beautiful but also promote a healthy living environment.

QUALITY ASSURANCE

All our stones have been rigorously tested at SGS, a world-leading inspection, verification, testing, and certification company. This ensures that our products meet the highest quality and safety standards. The composition analysis of our engineered stone reveals an approximate weight percent of 14% Unsaturated Polyester (UP) and 86% Glass, combining to create a durable and visually stunning product.
